

Controlled by
DX200

The MOTOMAN MH280 II is a versatile, high-speed 6-axis robot offering superior performance in material handling, machine tending and press tending.

The MH280 II offers a large work envelope of 2,446 mm and a high moment of inertia ratings. Fast axial speeds and acceleration reduce cycle times and increase production output. The compact, slim design allows the robot to reach into confined spaces, improving system productivity.

The MOTOMAN MH280 II is available with the optional Category 3 Functional Safety Unit (FSU), which allows an establishment of 32 safety units and up to 16 tools.

Key benefits

- Fast, flexible and powerful
- Compact design allows maximum performance using minimal floor space
- Max. payload of 280 kg
- Max. working range of 2,446 mm
- Enhanced safety functions (optional)
