

The MOTOMAN MH5S II, MH5F and MH5LS II, MH5LF are compact, high speed 6-axis robots that offer superior performance in a variety of applications such as packaging, material handling, machine tending and dispensing, where versatility is required. The MH5S II, MH5F and MH5LS II, MH5LF feature high reach and offer the widest work envelope in its class. Its compact design and built-in collision detection feature with multiple robot control allow up to eight robots to be used together to optimize productivity. This all-round robots can be driven by the high-performance-controller DX200 as well as the compact-controller FS100.

Controlled by  
**DX200**

Controlled by  
**FS100**

### Key benefits

- Compact, powerful and economical
- Compact design allows maximum performance using minimal floor space
- Yields extraordinary production results while requiring minimal capital investment
- Internally routed cables and hoses maximize system reliability
